A draft resolution of the Energy Division as Public Utilities (PU) Code § 399.8 requires the three major California investor owned electric utilities to assess a Public Goods Charge (PGC) to customers in order to fund certain public interest programs. It specifies that, starting January 1, 2002, \$425.5 million be provided to these programs each year until January 1, 2012. Summary: On November 1, 2002, Steve Linsey of the Office of Ratepayer Advocates (ORA) met with David Gamson, advisor to Cmmr. Brown, in San Francisco. Also present were Jan Reid of ORA and Robert Cagen, Legal Division attorney representing ORA. Linsey discussed the reasons why the proposed decision (PD) is unworkable and cannot be lawfully followed or interpreted. Reid and Cagen argued that the PD discards the accepted financial and economic theory of diversifiable risk. Reid and Cagen noted that the PD is inconsistent because it recognizes the Commission's duty to adopt the lowest reasonable rates and at the same time adopts the highest rates within a reasonable range of rates. Reid and Cagen also indicated that the PD unlawfully departs from the direct relationship between interest rates and return on equity recognized in all cost of capital decisions.

Summary: On November 4, 2002, Daniel Wm. Fessler representing Lodi Gas Storage,

L.L.C. (LGS), Western Hub Properties, L.L.C. and WHP Acquisition Company, LLC (collectively, 'Joint Applicants') met with Cmmr. Peevey in San Francisco. Also present were Julie Fitch and Kevin Coughlan, advisors to Cmmr. Peevey, and Christopher Hilen, representing the Joint Applicants. Written material (attached to the notice) was used. Fessler described the revised transaction and stated that there are no longer any market power or affiliate transaction problems with the transaction. Fessler indicated that ArcLight is contemplating further infrastructure investments in California, if ArcLight could point to a prompt approval of such an uncomplicated transaction in which neither the certificate of public convenience and necessity nor the daily operations of the facility were being changed. Hilen stated that because the Amendment had eliminated all requests for relief other than approval of the revised transaction, the Joint Applicants are hopeful that the Commission will issue a single decision.

|---------|------------|--|

Summary: LATE FILED. AUGMENTATION REQUIRED. On November 1, 2002, Brian Cragg, representing Cabrillo I, LLC and Cabrillo II, LLC (collectively, Cabrillo), met with Laura Krannawitter, advisor to Cmmr. Duque, and followed up the meeting with an e-mail (attached to the notice). Written material (attached to the notice) was used at the meeting. Cragg noted that the proposed decision (PD) would require gas transportation customers of San Diego Gas & Electric Company (SDG&E) desiring firm service to make firm commitments for transportation capacity, even though they have no current ability to secure matching commitments on the upstream system of Southern California Gas Company, due to the delay in the implementation of the Comprehensive Settlement Agreement. Cragg stated that many customers, like Cabrillo, would also be reluctant to enter into firm commitments unless a system of tradable rights was established. Cragg stated that these two aspects of the PD put electric generators whose need for transportation service depends on highly variable demand for electricity, in an untenable situation. Cragg also suggested that the decision should provide more clarity about how interruptible rates would be established, and urged that interruptible rates should be negotiated between SDG&E and parties desiring interruptible service.

Authority to Revise its Gas Rates Effective January 1, 2003, in its Biennial Cost Allocation Proceeding.

Summary: AUGMENTATION REQUIRED. On November 4, 2002, Brian Cragg, representing Electric Generator Alliance (EGA), met with Laura Krannawitter, advisor to Cmmr. Duque. Written materials (attached to the notice) were used. Cragg noted that item CA-13 on the Commission's agenda for its meeting of November 7, 2002 was opposed by several parties. Cragg stated that the proposed decision (PD) would eliminate Southern California Gas Company's (SoCalGas) risk related to noncore throughput revenues beginning in 2003. Cragg noted that the PD would adjust only one component of rates, while leaving all other components untouched. Cragg suggested that the result of granting SoCalGas' request would be noncore rates that have no internal consistency.
